\$1.50 PER YEAR

Wants to Attend School Though 30 Years Old

An Example of How the Night Schools Have
Appealed to the Men in Attendance.

The enrolment of the school has been considerably increased this month by the addition of about a dozen boys of foreign nationality, aged from 14 to 17 years. Their acceptance into the school at this time necessitates a great deal of extra work for the teachers, and the limit was reached this week when a man of thirty odd years applied for admission. He had been at night school and wanted more of a good thing. However, he was told he must content himself with the night school for the present at least.

The total enrolment for the month was 393.
The following are the names of those taking first and second place in their respective classes:
Grade XI—Harry Clark.
Grade X—Louise Price, Mary Black.

Grade IX—W. C. Black, Lizzie Johnston.
Grade VIII—Sydney Smith, Maude Grafton.
Grade VII—Fred Anthrobus, Elizabeth McAskill.
Grade VI—Elsa Disney, Emile Pelletier.
Grade V—Gordon Ross, Annie

Extension Lecture Will Be Illustrated

On the evening of Thursday, December 17th, a lecture on the "Causes and Issues of the War" will be given in Coleman by A. E. Ottowell, secretary of the department of extension of the University of Alberta.

These lectures are given at different points throughout the province, under the auspices of the various public school boards, and Principal Black, who was instrumental in securing the series of lectures for Coleman, is in charge of the arrangements here.

The managers of the Institutional church have given the free use of the church for the above lecture. This lecture will be illustrated with lantern slides and there will be no admission fee charged.

Municipal Nomination Day

Next Monday is nomination day, and this year there are four vacancies on the council to be filled, and three on the school board.

On the council, those whose term expires at the end of the year are Mayor Ouimette and Aldermen Holmes, Ritchie and Clark. Mayor Ouimette has definitely stated that he will not accept nomination again. Messrs. Clark and Ritchie will probably seek re-election as aldermen, while Mr. Holmes' name is mentioned freely as Mayor Ouimette's successor in office.

On the school board, the retiring members are Chairman Cameron and Trustees Haysom and Hyslop. Mr. Cameron, we understand, will seek re-election, and H. W. Clark will also accept nomination as a candidate for school trustee, but we have no information as to the intention of either Mr. Haysom or Mr. Hyslop in this respect.

HUSBAND OF COLEMAN WOMAN WAS BURNED

Creston, Nov. 24. —Yesterday morning Hugo Haro was burned to death and two friends who were stopping with him were so badly burned that one of them may not recover. Haro had lighted the fire which did not burn fast enough and while in the act of throwing coal oil on the smoldering wood an explosion occurred and he was immediately covered with fire and before he could get out of the house was overcome, and the house taking fire he was burned to death. His two friends were unable to render any assistance. They were still in bed when the explosion occurred and in making their escape were so severely burned that had not the neighbors noticed the house on fire, all three would have perished. Haro was a Finlander who had located on a 20-acre plot and was specializing in poultry. He was married only a few weeks ago to Mrs. Vuori of Coleman.

CITIZENS FORM A RELIEF SOCIETY

A meeting was held in the council chamber on Wednesday afternoon to devise some way in which assistance could be rendered for those families in Coleman that are in urgent need at the present time.

There were over 25 gentlemen present and the meeting was fairly representative. After some discussion, a committee of five was appointed to devise ways and means of raising cash with which to secure the necessities of life for the needy ones, this committee to act in conjunction with the relief committee of the council.

About \$56 were contributed in cash by those in attendance at the meeting, and goods to an equal value were also given.

At a subsequent meeting of the above committee, it was decided to hold a benefit dance in the opera house next Monday evening in order to raise funds. Mayor Ouimette is chairman of the relief committee, and J. McKeagan is secretary.

Sent to treasurer relief commission 467 25

Bellevue, Nov. 14, 1914

W. L. Ouimette, Esq.,
Mayor of Coleman,
Coleman, Alta.

Dear sir,—I have to acknowledge with thanks your favor of the 12th inst., enclosing check for the amount of \$467.25 for the credit of the Hillcrest relief commission.

Please convey to the citizens of your town the commission's earnest appreciation of their liberal donation. Assuring you that it will be our constant aim to use the funds so willingly subscribed for the best possible end, I have the honor to be,
Your obedient servant,

F. WINDSOR,
Treasurer Hillcrest Relief Com.

Mrs. F. G. Graham has been authorized to receive subscriptions in Coleman for the purchase of a motor ambulance to be sent to the front as the gift of the women of Southern Alberta. Only women are asked to give, and the sum is placed 25c from each. This is indeed a worthy undertaking, and it is hoped the women of Coleman will all contribute their little share. And it is desirable that all donations be turned in as quickly as possible.

Santa Claus has arranged to make his headquarters at Good-eve's hardware and furniture store this year.

The Bear That Got Away

Your hunter reckons not the hardships of the trail. He welcomes them. He tells you with great gusto of the deer he didn't kill, and the incident in the story he sends to his favorite outdoor magazine. Consider the following paragraph, taken from an account of a bear hunt:

"While putting the dogs into the brush at the little brown bear, I was attracted by my attention up the mountain side on the rocks. I looked up and behold the little brown bear, gazing down upon us. I threw my gun to my shoulder and fired, but an instant later, for just as I pulled the trigger he dropped out of sight behind the rocks. The dogs saw him, however, and the chase was on. Mr. Bear turned into the brush and down the gulch he came, with both dogs close at his heels. Close to the Rancher, they crashed through the thick undergrowth—so thick that it was difficult to determine which was bear and which was dog. The Rancher got to several shots, but with no effect. Down the mountain we ran, dogs and bear in the lead, everybody yelling to encourage the dogs and in the hope of scaring the bear up a tree. Breathless, we finally got to the top of the mountain, where the bear was lying down under a tree, all in and no bear in sight. His pace had been too hot for our hounds. The dogs had had enough. (Now hear the conclusion of the matter.) 'It was the Rancher's first bear and he was much disappointed not to get him. We all agreed that it was the best sport that we had had in a long time, hence were pretty well satisfied. It was 'the Rancher's first bear,' even though it escaped. There spoke the true hunter."

Japanese Honor

A high standard of honor is prevalent among the Japanese, as the following story will show: A Japanese nobleman happened to slide back the thin wall which separated his room from the room in which a young page was kept. This boy was amusing himself by counting the rings of the nobleman's sword-hilt, and the man, seeing that the lad had heard the almost noiseless withdrawal of the page, quietly slid it back again and said nothing.

That evening, however, when all the household, including the page-boy, was gathered together, the nobleman set them to guess how many rings there were on the sword-hilt, promising a reward to the one who guessed right.

Some guessed one number and some another, but the page-boy said nothing.

"Why do you not guess?" said the nobleman in a stern voice to his page. "Are you lazy?"

"Oh, sir," said the boy, "it would not be fair for me to guess, because I know. I counted them this morning. There are eleven, but I could not pretend to guess."

Dr. A.—Why do you always make such a fuss about the matter of your patients' feet? Does that assist you in your diagnosis?

Dr. B.—Not that, but it enables me to ascertain their social position and arrange my fees accordingly.

Urged to Plant More Wheat

In increased acreage in wheat, that the product may be equal to the requirements of the Mother Country, it is appealed for by the Hon. Martin Burroughs, minister of agriculture, in a circular to western farmers.

The minister says that "as farmers on the prairie know it is now too late in the season to attempt to increase the wheat area by breaking new land for the crop of wheat, the only way to get more wheat is to promptly and carefully handle the stubble land."

"It is therefore urged upon every farmer in Manitoba, Saskatchewan and Alberta in the wheat growing districts, that he give the matter of fall preparation in the stubble land for wheat his immediate and careful attention. Let it be the determining factor of every farmer to make his wheat acres in 1916 yield as never before."

"It is certain that an increase of many millions of bushels can be insured if every farmer will carefully consider the suggestions and put them into practice."

Improvement of Highways

Of a total sum of \$1,300,000, voted by the Saskatchewan government for the highways improvements, \$1,002,685.84 was spent on the roads during the year ending April 30, 1914, according to the annual report of the Saskatchewan Highways Commission tabled in the house a few days ago. This sum \$1,002,685.84 was spent on road improvement direct and \$417,065.69 was spent by municipalities under the commission regulations. For steel bridges and concrete abutments there was a vote of \$305,000, in the sum spent on this class of construction being \$337,483.18.

DISEASE IS DUE TO BAD BLOOD

To Cure Common Ailments the Blood Must be Made Rich and Red

Nearly all the diseases that afflict humanity are caused by bad blood. Bad blood is the cause of headaches and backaches, lumbago and rheumatism; indigestion and constipation; and all the other ailments that afflict the human race.

No use trying a different remedy for each disease because they all spring from the one cause—bad blood. To cure any of these troubles you must first get the blood into the condition of the blood. It is just what Dr. Williams' Pink Pills do. They make weak, thin blood and this cure these diseases when common medicine fails. Mr. John Jackson, Woodstock, N.Y., writes: "I was a sufferer for a number of years from rheumatism and a general debility. I had tried several doctors and many medicines but to no avail until I began the Pills. I had given up so that I could hardly be on my feet and was forced to wear elastic bandages about the ankles. The pain I suffered at times from the rheumatism was terrible. I felt as if I were being torn apart. When I began the use of Dr. Williams' Pink Pills in the course of a few weeks I felt a great improvement and I gladly continued the use of the Pills until I was once more a healthy man. I feel as if I were a new man."

"I might easily be leaving town Saturday afternoon," said the boy, "and I am anxious to get away."

Pointing to the poster on the wall, Mrs. Bardon said to the boy: "To be released on Monday."

Shipowners Ask Protection

The government have been in communication with the imperial government with respect to the measures taken for the safeguarding and insurance of merchant shipping under the British flag.

It is learned that difficulties have arisen between shipowners and shipowners in consequence of the fact that the latter to insert in bills of lading a clause to cover obligations, which they undertake as to any voyage or insurance, to the detriment of the shipowner, to call at a port in the United Kingdom for information, instruction or advice from the Admiralty or some other department of the government before proceeding on the final stage of the voyage.

The clause in question covers the cargo equally in the ship, and does not prejudice the shipowner's interests, as the government hopes no further objection will be made to its insertion.

LARGE WORKS COMPLETED

Recapitulation of Work on the C.P.R. During the Present Year

In spite of the depression from which all interests suffered more or less, even before the war broke out, it may be interesting to recapitulate the outstanding features of the work the C.P.R. did during the present year from January up to date. As a whole, the year was a very successful one.

At McAdam Junction the C.P.R. recently completed a new machine and erecting shop; and added over one mile of new storage tracks to their yard at McAdam Junction; a drop-down elevator with a capacity for 1,000,000 bushels with an up-to-date power plant was completed, this machine is now in operation. At West St. John, not to speak of great improvements to the terminal facilities. The improvements at the passenger and freight terminals at the Windsor station are marked by bulk and efficiency. The terminal, which is just completed, is one of the largest of the most modern types now in use. At the same time the improvements at Place Viger, which have been in hand for three years, are now completed. These, in their entirety, of station, hotel and tracks, cost nearly \$5,000,000.

The union station at Quebec has been completed. The new double track bridge at Lachine which cost nearly \$3,000,000; the new Lake Shore Line, which has opened for traffic in June; the new station and viaduct at Toronto which are only held temporarily; the extension of the Kippewa Branch line 10 miles in a northerly direction; a 30-mile extension from Espana to a junction with the Weyburn-Stirling branch of the C.P.R., and which will be completed this fall; the line between Swift Current and Estevan, a distance of 111 miles, and which will be completed this year; the main line cut off from Swift Current to Estevan, a distance of 111 miles are completed; the 78 miles of the C.P.R. branch from Lacombe to Kerrobert, a distance of 65 miles of the C.P.R. branch from Lacombe to Kerrobert, a distance of 65 miles of the C.P.R. branch from Lacombe to Kerrobert, a distance of 65 miles of the C.P.R. branch from Lacombe to Kerrobert, a distance of 65 miles of the C.P.R. branch from Lacombe to Kerro

Lucille Love

Series No. 15

Hugo Loubeque, the international spy, falls into the trap which heretofore he had used to defeat those who had opposed him. Plan as a man will, unforeseen co-incidences arise which confound reason and place the work of a lifetime at naught. It happened thus with Loubeque. When Lucille learned that Loubeque was to meet Lieutenant Hadley at his (Loubeque's) home, she at once hastened to the rendezvous herself. As she was the first to arrive, she took a look through the house of so many horrors. When she beheld a picture of Loubeque upon the wall, the thought of all his crimes and the bitter hatred of her father overwhelmed her, and she raised her revolver and fired into the face of the picture.

Even before the echo of the report had died away an amazing thing happened. She saw the floor of a bedroom sink slowly out of sight. Had she not already known what had transpired in that house, she would have been, indeed, confounded. Lucille removed the picture from the wall, and behind it found a switchboard. It was from this board that Loubeque controlled all the traps, staircases and sliding ways and floors of the house. Forthwith she tested every switch. One caused a staircase to disappear, while another caused a desk to sink into the floor. No sooner had she mastered the system of switches than Lieutenant Hadley arrived. In an instant she hid her plan of action. She informed Hadley that Loubeque was not there, but that he would leave on the Golden State Limited that night. Hadley was satisfied and left.

A few moments later, Loubeque arrived to keep his appointment with Hadley. Instead of Hadley he found Lucille. As Loubeque leaned against the desk Lucille pressed the proper button and Loubeque fell through the floor with the big desk upon him. While he was still in a stunned condition, Lucille crept into the cellar and removed the documents from his inside pocket. An instant later Loubeque recovered and ran after the girl, but he was just one minute too late. She ran to the mouth of the secret tunnel, and just before Loubeque grasped her in his arms she closed down and locked the iron gate. This was her moment at last. She could laugh and jibe the spy, and he was helpless to harm her. But time had not ceased to be precious. Lucille rushed to the railroad station and caught the outgoing train. Loubeque also arrived but he was too late. Lucille was gone forever with the papers. Returning to his home Loubeque told Gibson that Lucille was on her way to Washington with the documents, but Gibson thought the spy was lying to him. Each took a sword, and they decided to settle the argument with blood. In the midst of a terrible duel, however, the house was surrounded by detectives, and Loubeque saw that he must escape while there was yet time. In the instant before the detectives rushed in, Loubeque took a package from his pocket containing Lucille's costly necklace and handed it to Gibson, with instructions to take it to the secretary of war. A moment later Loubeque disappeared and the floor of the house tumbled into the cellar, trapping those who had come to arrest the spy.

Lucille delivered the documents to the secretary of war at Washington, and thus saved the name of her father and of her sweetheart, Lieutenant Gibson. Gibson arrived while Lucille was yet with the secretary. He fell at Lucille's feet and beg-

ged her forgiveness for misjudging her, and she was only too willing to re-establish him again in her heart. That night Loubeque wrote in his diary: "My debt of hate toward Sumpter Love is cancelled, for no hate can outlive love in the man who has known Lucille." Loubeque loved Lucille.

Million Dollar Mystery

Episode No. 9

Having succeeded in making Florence believe her sweetheart, Norton, false, the conspirators strive desperately to get Florence into their power and to rid themselves of Norton's presence in the game. They secure a medical certificate, signed, under threats, by two doctors to the effect that Florence is insane, cleverly abduct her right under the nose of the police, and carry her aboard an out-going ocean liner. This episode thrills with startling action. Florence, when far out at sea, leaps from the ocean liner in the dead of night, battles with the waves, is finally rescued by a fishing schooner, and carried to the humble fisherman's home. But her mind is a blank.

The Natal Reporter gets off the following. Note the suggestion: "You may hivy the stars in a nail keg, hang the ocean on a rail fence to dry, put the sky to soak in a gourd and unbuckle the bellyband of eternity, and let the sun and moon out, but don't think you can escape the place that lies on the other side of purgatory if you don't pay for your paper. There's no hope. Have YOU subscribed for the Bulletin—or do you borrow it?"

Whipping Austria

Whipping Austria has become a habit.

Whipping Austria has been the pastime of European nations for one thousand years. No country stands so low in the International Cannonball League. France, Italy, Sardinia, Prussia, Spain, Turkey and the Netherlands have all beaten it in the last two centuries. It has been the hoodoo of nations. Whenever it has allied itself with its neighbors, the war has failed. When it has stood on the side lines the allies have won and divided the spoils.

Napoleon took great delight in fighting Austria. It rested and refreshed him after his severer battles. He changed the map of Austria so often that the map makers issued extra like yellow journals and he helped himself to 90,000,000 florins and a new wife at one swoop. France and Sardinia beat it in 1859. Prussia whipped it in a practice war in 1866 before tackling France. From the Dark Ages to the middle of the last century the sound of pain and anger in the European concert meant that someone was taking something away from Austria.

And yet Austria is larger than ever. This is partly because whenever a slice of territory was carved off by one nation, several other jealous nations made it give up another slice in exchange. No nation could afford to let any other nation grab too much. And so Austria, throughout history has been a depository for territory which no one else wanted at the time. It has owned Italy, Holland, Alsace, Servia, Bavaria and Switzerland at one time or another -- until someone else needed them.

If Austria loses again it will go on the operating table once more, while Italy, Servia and Russia stand over it and mark out upon the unhappy patient the parts they desire to slice off. If Austria wins she may get back Servia, Montenegro and Venice. But win or lose her map will be changed. It always is. An unbroken precedent requires that a treaty of peace in Europe must be accomplished by a revision of Austria to make the balance of power hang true.
